Research Interests

I am interested in building data-efficient, data-centric, and human-centered machine learning systems.

- **Multimodal and multisensory AI:** human signals (temporal, physiological, wearable, acoustic) for health.
- **Cross-modal representation learning:** modality gaps and alignment across time-series, language, and vision.
- **Adaptive and agentic AI:** continual learning, personalization, and few-shot adaptation; self-evolving agents.
- **LLMs and specialized foundation models:** efficient pre- and post-training and inference across modalities.
- **Efficient learning and reasoning:** data-, sample-, parameter-, and token-efficient methods, including PEFT.
- **Data-centric learning:** data curation, informative sample selection, and uncertainty quantification.

Education

Ph.D. in Electrical and Computer Engineering, GPA: 3.9/4.0 — Aug. 2023 – Present
The University of Texas at Austin — Austin, TX, USA
Advisors: Prof. Joydeep Ghosh (prev. Prof. Edison Thomaz)

B.Tech. in Information Technology — June 2017
Anna University — Chennai, India

Publications

* equal contribution and joint lead authorship. Google Scholar | **416** citations | h-index **10** | i10-index **10**

Conference, Journal, and Workshop Papers

[1] **Latent-LoRA: Compact Latent-Space Adapters with Gradient-Free Routing for Continual Learning**
R.R. Azghan, **Gautham Krishna Gudur**, P. Turaga, G. Pedrielli, and H. Ghasemzadeh
EMNLP Findings 2026

[2] **RAST: Resolution-Aware Privileged Structure Transfer for Low-Resolution Audio Activity Recognition**
J.H. Park, **Gautham Krishna Gudur**, Y. Shen, D. Liang, and E. Thomaz
ACM MobiCom Workshop on Human-Centered Sensing, Modeling, and Intelligent Systems (HumanSys) 2026

[3] **WellComp 2026: Ninth International Workshop on Computing and Software Systems for Well-Being**
Gautham Krishna Gudur, H. Yoon, Y.Y. Wu, T. Xia, and H. Jia
ACM UbiComp Companion 2026

[4] **PCL: Partitioned Continual Learning via Unsupervised Latent Experts for Audio Classification**
Gautham Krishna Gudur*, M. Malu*, T. Khandait, R.R. Azghan, A. Rayas, P. Turaga, J. Ghosh, et al.
ICML Workshop on Machine Learning for Audio 2026

[5] **Gated Adaptation for Continual Learning in Human Activity Recognition**
R.R. Azghan, **Gautham Krishna Gudur**, M. Malu, E. Thomaz, G. Pedrielli, P. Turaga, and H. Ghasemzadeh

Research and Work Experience

The University of Texas at Austin – Graduate Research Assistant — Austin, TX
Advisors: Prof. Joydeep Ghosh, Prof. Edison Thomaz — Aug. 2023 – Present

- Devised test-time LLM personalization for multimodal time-series health tasks via few-shot in-context learning.
- Proposed SVFT (Singular Vectors guided Fine-Tuning), a Pareto-optimal PEFT method [with Prof. Sanghavi].
- Designed continual learning via unsupervised latent partitioning for audio sensing, LoRA adapters, multi-sensor HAR, and cross-population glucose prediction; reduced labeling costs up to 3000× with dataset distillation.
- Developed multimodal/multisensory and cross-modal alignment for time-series, language, health, and audio.

Bosch Research – Foundation Models Research Intern (BCAI) — Sunnyvale, CA
Mentors: Gorden Li, Wenbin He, Liu Ren — May 2026 – Aug. 2026

- Improved general-purpose time-series understanding in multimodal foundation models via tool-calling agents.

Nokia Bell Labs – Research Intern (Device Intelligence team) — Cambridge, UK
Mentors: Soumyajit Chatterjee, Mohammad Malekzadeh, Fahim Kawsar — May 2025 – Aug. 2025

- Improved generalizability of PPG-based health foundation models using test-time adaptation.

Independent Research — Dec. 2018 – May 2023

- Analyzed how calibration affects sample prioritization during training [with Prof. Emtiyaz Khan, RIKEN].
- Worked on Bayesian active learning for on-device human activity recognition (HAR) and wearable sensing.

Ericsson R&D, Global AI Accelerator (GAIA) – Data Scientist III — Chennai, India
Mentors: Shrihari Vasudevan, M J Prasath — Feb. 2019 – Apr. 2023

- Worked on ML for network intelligence and telecom, leading to publications, patents, and AI-driven solutions.
- Advanced Ericsson's AI-Native telecom stack: 3GPP standardization for federated learning and multi-vendor model sharing, 5G NWDAF mobility and connectivity modeling, and Bayesian anomaly detection (E-ADF).
- Built telco-AI platforms: the Ericsson LLM Hub with domain-rich data and LLMs, language translation, active learning for customer-symptom modeling, and object detection for cell-site infrastructure failures.
- Designed zero-shot federated learning frameworks to handle new heterogeneous classes and models.

SmartCardia (EPFL) – Machine Learning Engineer — Chennai, India
Mentor: Srinivasan Murali — May 2018 – Nov. 2018

- Implemented gradient-boosted ensembles and LSTMs for regression and classification on imbalanced wearable clinical time-series; engineered biomarker features for sleep apnea, troponin, blood pressure, and hemoglobin.

Solarillion Foundation – Research Assistant — Chennai, India
Mentor: Vineeth Vijayaraghavan — Feb. 2016 – May 2018

- Led development of HARNet – deep ensembles for activity recognition with on-device incremental learning.
- Designed dynamic gesture recognition models with efficient feature engineering on a $5 Raspberry Pi Zero.
- Deployed a movie occupancy predictor for a top Indian multiplex via tree-based models and branched LSTMs.

SSN College of Engineering – Undergraduate Student Researcher — Chennai, India
Mentors: Prof. Bhalaji N, Prof. Srinivasan R — Feb. 2015 – Mar. 2017

- Developed a CNN-based bus stop recognition system with ∼96% accuracy in dynamic Indian environments.
- Led an HCI project on Neurocinematics to classify real-time cognitive responses of film viewers via EEG.
- Evaluated routing protocol performance metrics on a Contiki testbed to identify the optimal IoT mote.

Honors, Awards, and Fellowships

- **Oral presentation** – SVFT at the ICML WANT Workshop 2024.
- **Graduate Ph.D. Fellowship** – Cockrell School of Engineering, UT Austin.
- **Winner, GermEval Shared Task 1 (Subtask a)** – KONVENS 2019, post-evaluation phase.
- **Ericsson Top Performance Competition 2020** – Operational Excellence category, for the AIB project.
- **Full registration grants** – ICLR 2021, NeurIPS 2020, and OxML 2020.
- **Top 1 percentile** – HackerRank Problem Solving (Advanced), Algorithms domain.
- **Undergraduate research grant** – INR 25,000 from SSN College of Engineering.

Professional Service

Workshop Organizer

- ACM UbiComp Workshop on Computing and Software Systems for Well-Being (WellComp) — 2026

Program Committee / Reviewer

- Pervasive and Mobile Computing (Journal) — 2026
- International Conference on Acoustics, Speech and Signal Processing (ICASSP) — 2025 – 2026
- INTERSPEECH — 2026
- IEEE International Workshop on Machine Learning for Signal Processing (MLSP) — 2026
- ACM International Joint Conference on Pervasive and Ubiquitous Computing (UbiComp/ISWC) — 2025
- ACM International Conference on Multimodal Interaction (ICMI) — 2025
- ACM UbiComp Workshop on Computing and Software Systems for Well-Being (WellComp) — 2026
- ICML Workshop on Efficient Systems for Foundation Models (ES-FoMo) — 2024
- ICLR Workshop on Distributed and Private Machine Learning (DPML) — 2021
- NeurIPS Workshop on Machine Learning for Health (ML4H) — 2019 – 2020
- KONVENS GermEval — 2019

Other Service

- Event Organizer, Data Nuggets – a data science contest at Invente, SSN College of Engineering — 2016

Talks and Presentations

- Machine Learning and Ubiquitous Computing
  SSN College of Engineering June 2022
- Heterogeneous Zero-Shot Federated Learning with New Classes for On-Device Audio Classification
  MobiUK July 2021
- Zero-Shot Federated Learning with New Classes for Audio Classification
  Eastern European Machine Learning Summer School (EEML) July 2021
- Telecom-Specific Language Translation using GCP
  Ericsson/Google Cloud Day May 2021
- Resource-Constrained Machine Learning for Ubiquitous Computing Applications
  Flipped by GAIUS Sept. 2020
- ActiveHARNet: Towards On-Device Deep Bayesian Active Learning for Human Activity Recognition
  Eastern European Machine Learning Summer School (EEML) July 2020

Teaching and Mentoring

Teaching

The University of Texas at Austin – Graduate Teaching Assistant 2025 – Present

- ECE 381K Applied Machine Learning, taught by Prof. Joydeep Ghosh (∼40 students) Fall 2026
- ECE 381V Deep Learning, taught by Prof. Joydeep Ghosh (∼50 students) Fall 2025
- ECE 382V Human Signals: Sensing and Analytics, taught by Prof. Edison Thomaz (∼80 students) Spring 2025
- Designed assignments, exams, and quizzes; mentored students on paper reviews, presentations, and projects.

Solarillion Foundation – Teaching Assistant Feb. 2017 – May 2018

- Mentored 10+ students on embedded ML research projects and assignments.

Mentoring

Aadharsh Aadithya (UT Austin) 2026 – Present
Topic: Discrete diffusion models for time-series data

Ji Hwan Park (UT Austin) 2025 – 2026
Topic: Audio sensing and multimodal alignment

Abhijith Ragav (Georgia Tech → Amazon) 2020
Topic: Bayesian active learning for wearable stress and affect detection

Prahalathan Sundaramoorthy (USC → HP Labs) 2018
Topic: Bayesian active learning for activity recognition

Nidhi Bhandari (UCLA) 2017 – 2018
Topic: Deep learning and human activity recognition

Manav Rajiv Moorthy (University of Washington → Amazon) 2017 – 2018
Topic: Deep learning and human activity recognition

Technical Skills

Languages: Python, C++, HTML/CSS, Bash, SQL, JavaScript
Tools: Git, LaTeX, Claude Code, Docker, GCP
Libraries: PyTorch, TensorFlow, Hugging Face Transformers, Keras, NumPy, Pandas, Scikit-learn, PySpark

Summer Schools

5th Summer School on Artificial Intelligence, CVIT, IIIT Hyderabad — Aug. 2022
– Computer vision and machine learning.

Eastern European Machine Learning Summer School (EEML) — July 2021
– Poster on zero-shot federated learning with new classes; unconference talk on continual learning.

Oxford Machine Learning Summer School (OxML) — Aug. 2020
– Deep learning and healthcare; attended with a full-fee waiver.

Eastern European Machine Learning Summer School (EEML) — July 2020
– Poster on ActiveHARNet.
